

IMPORTANT

Should road conditions force the closing of the 1100 block of Richmond Drive (the second left turn as you enter the Harbour), the designated alternative route is the next left turn (John Paul Jones Drive).

Residents are reminded that streets should be kept free of parked vehicles, so that the snow ploughs can clear the roads. Main thoroughfares will be ploughed first, followed by side roads and then cul-de-sacs. Please be patient with the snow ploughs. When it is snowing the crew does work continuously covering all 38 miles of Aquia Harbour's roads. Unless you have urgent business, residents are encouraged to stay home during inclement weather.
